linkedin.com/in/oluwatosin-odejinmi-1a84b6322 · github.com/prof-tosin

Solo software developer who designs, builds, and ships live web products end to end — from database schema to deployed PWA. Currently leads a five-person team building a student platform used across a university campus, alongside undergraduate studies in Project Management Technology.

SELECTED PROJECTS

SmarTosh — FUTA Online Class

Sole Developer & Team Lead · [futaoc.vercel.app](#)

Live platform serving FUTA students: CBT practice/test modes, a draggable scientific calculator, CGPA calculator, real-time leaderboard, community chat, direct messaging, push notifications, and an admin panel. Built on Firebase RTDB as a PWA. Leads a team of five.

Tokunbo Market

Developer · [tokunbomkt.vercel.app](#)

Peer-to-peer marketplace PWA for the FUTA student community, with real-time chat, delivery-status ticks, verified badges, and admin-driven account moderation.

ARA Pottery

Developer · [arapottery.vercel.app](#)

Multi-page storefront with a Firebase RTDB backend, Cloudinary image hosting, and a hidden admin panel for catalog management.

Folium

Developer · [prof-tosin.github.io/folium](#)

Medium-style community writing platform with a rich-text editor, deployed through a fully browser-based, no-CLI workflow.

Bibeli Mim■ — KJV & Yoruba Bible

Developer · [prof-tosin.github.io/bible](#)

Bilingual Bible PWA with parallel text, offline reading, bookmarks, text-to-speech, and a 30-day reading plan.

Game Hub

Developer · [prof-tosin.github.io/game](#)

Offline-first PWA hosting original games, including a Karachi card game and a Bible trivia game, with all data bundled locally. Also built: STEM Test, a Scientific Calculator, an English Dictionary app, and DayBook — a personal journaling PWA (all live).

LEADERSHIP

Assistant General Coordinator — Deeper Life Campus Fellowship, FUTA

Coordinate fellowship activities and lead document production for the group, including proposals and event materials. Planned and ran Foundation Builder 1.0, a student empowerment event, handling its proposal, flyer design, and post-event communication end to end.

EDUCATION

Federal University of Technology, Akure (FUTA), Nigeria

Project Management Technology · 2023 – 2028

University of the People, California, USA

Business Administration · 2025 – 2029

TECHNICAL SKILLS

Languages & Runtime: Vanilla JavaScript, HTML, CSS

Platform: Firebase Realtime Database, Progressive Web Apps (PWA), Cloudflare Workers, Cloudinary

Deployment: GitHub Pages, Vercel — browser-only, no-CLI workflows

Document tooling: ReportLab (PDF), docx (npm)
